⫸ Promethium

Data Fabric Solution
Empower everyone to be data driven

SOLUTION

Empower everyone to instantly discover and use data for analytics without being slowed down by complexity.

Business is more data driven than ever and the demand for fast and easy data and analytics is at an all-time high.

Solution Overview.

Speed matters to business performance. So, when the speed of data driven decisions is slowed down by complex data access, business performance suffers.

Data Fabric is the modern way to overcome complexity so Data Engineers, Data Analysts and Business Teams can spend more time boosting business performance with data.

With Promethium you get an all-in-one Data Fabric solution.

Why Promethium.

Avoid 1,000s of hours of data consolidation

Don't move data if it isn't necessary. Get real time access to enterprise-wide data

Save $M in data integration

Easily connect to all kinds of data sources in your data center or in the cloud
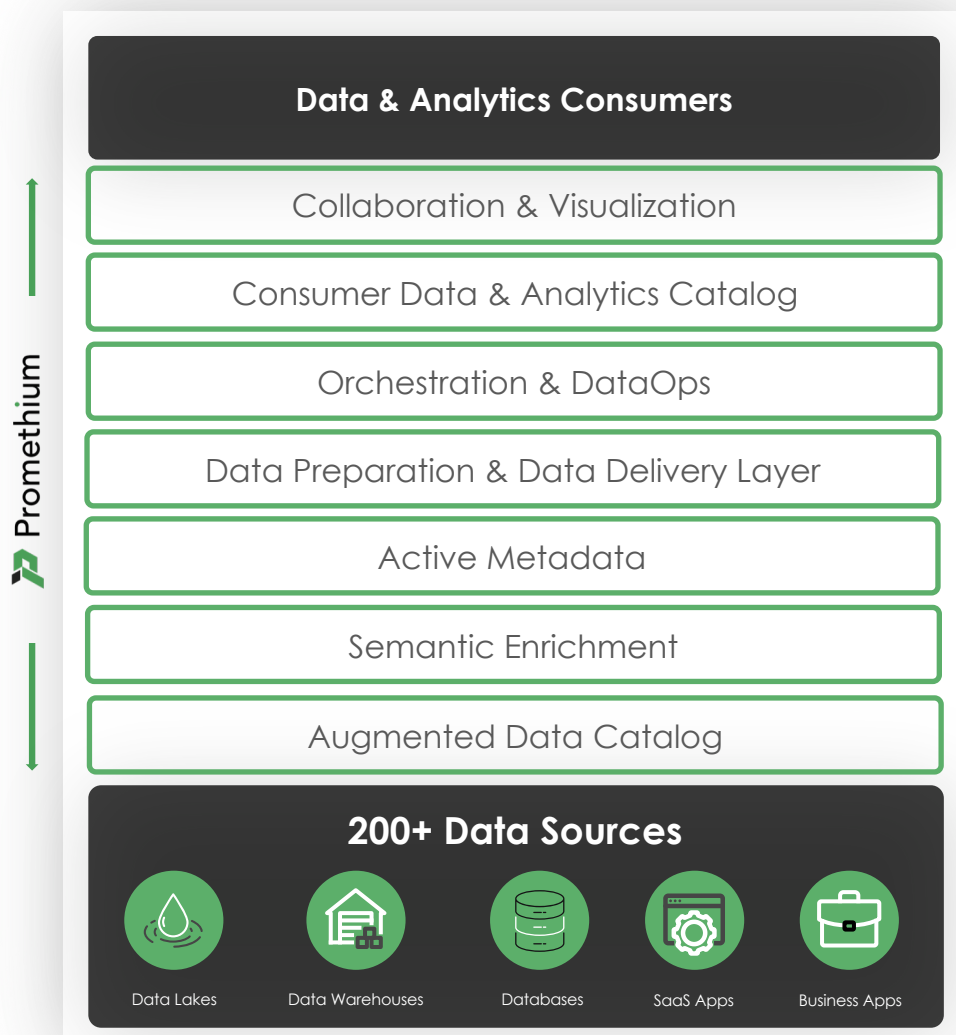

Make Self Service a Reality

Self Service Data and Self Service Analytics made possible and easy

The Single Most Comprehensive Data Fabric Solution

Promethium checks more boxes for data and analytics Data Fabric than any other single solution available today. Promethium's all-in-one no-code solution can be ready to use in minutes. Don't waste years and millions of dollars on trying to integrate incompatible products.

Data & Analytics Consumers

The Promethium Difference.
Powerful enough for Data Engineers, easy enough for Business Teams

By using Promethium's Data Fabric organizations and businesses can save thousands of hours every year, reduce time to market and can be up and running in days without expensive professional services. There are many more reasons why Promethium's unique all-in-one solution is right for you, including:

Data Discovery: Automated Data Catalog included. Natural language search matches best fit data. Tags and annotations for context.

Data Preparation: Create and share datasets in minutes with AI & ML driven assistance. Fast federated query without moving data.

Data Access: Easy on-demand access for Analysts, Business Users and analytics tools like Power BI, Tableau, Looker and Qlik.

Metadata Analysis: Report most popular data, queries and analysis (questions) to better understand business needs. Peer reviews.

Connectivity: 200+ supported data sources. Including MS SQL, Oracle, Snowflake, Synapse, S3, Teradata, IBM DB2, Databricks, Salesforce, more…

Governance & Security: Row and column level access control. Kerberos, OKTA, LDAP integration. Data encryption and masking. Query auditing. RBAC.

Fast Start: Results in days, not months or years. No professional services required.
